13. like this...

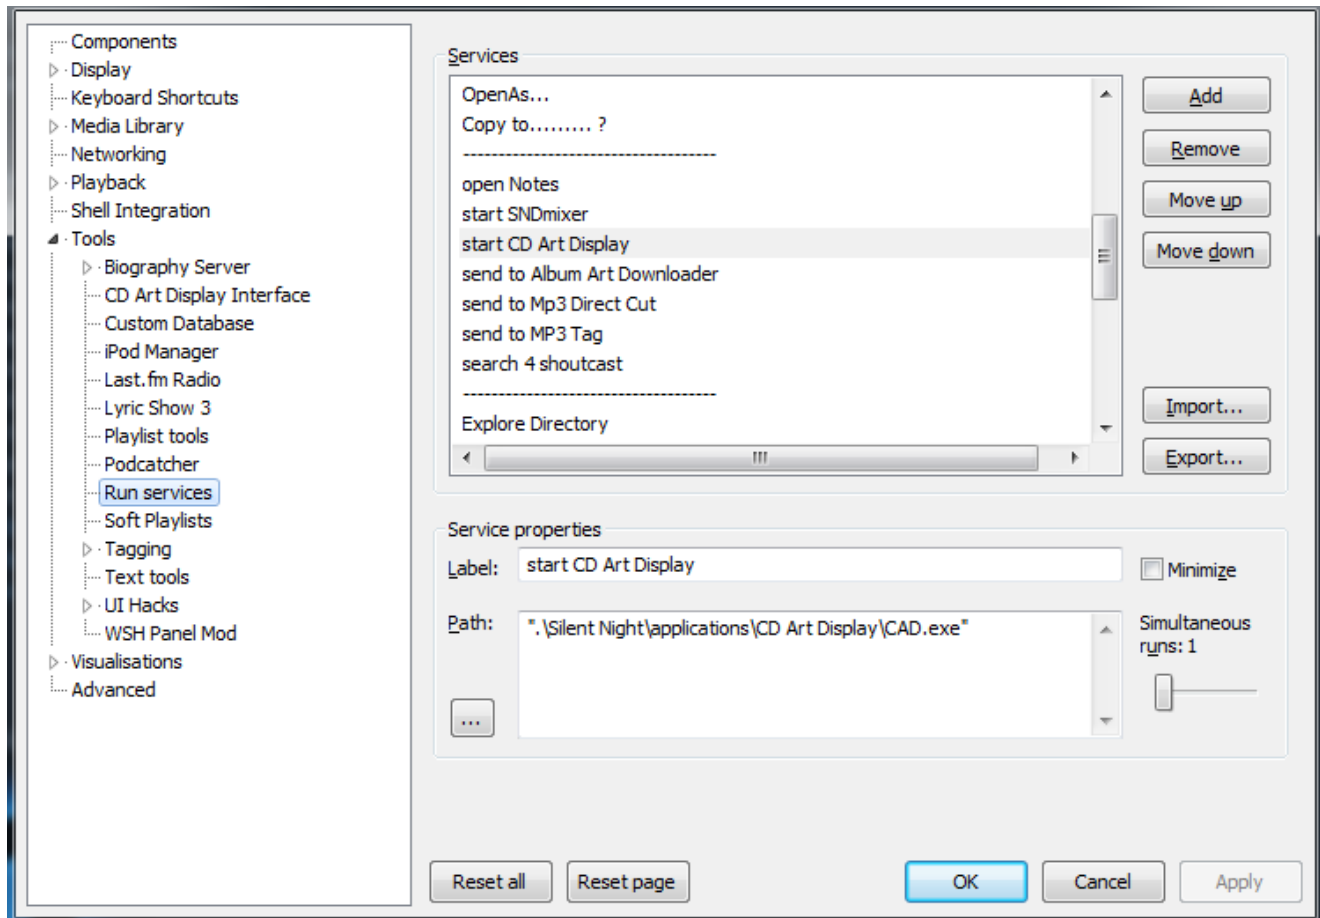

14. The [CD Art Display](#) Button ist just a link to you CAD.exe

I don't know where I can get a portable version of CD Art Display so you must set the path to the application by yourself...

SILENT NIGHT FOR FB2K

User Guide

"..\CDArtDisplay\CAD.exe"

That is a relative path

"E:\Tools\CDArtDisplay\CAD.exe"

and that is the exact path to the application

by the way...

That's the location to my foobar 2000

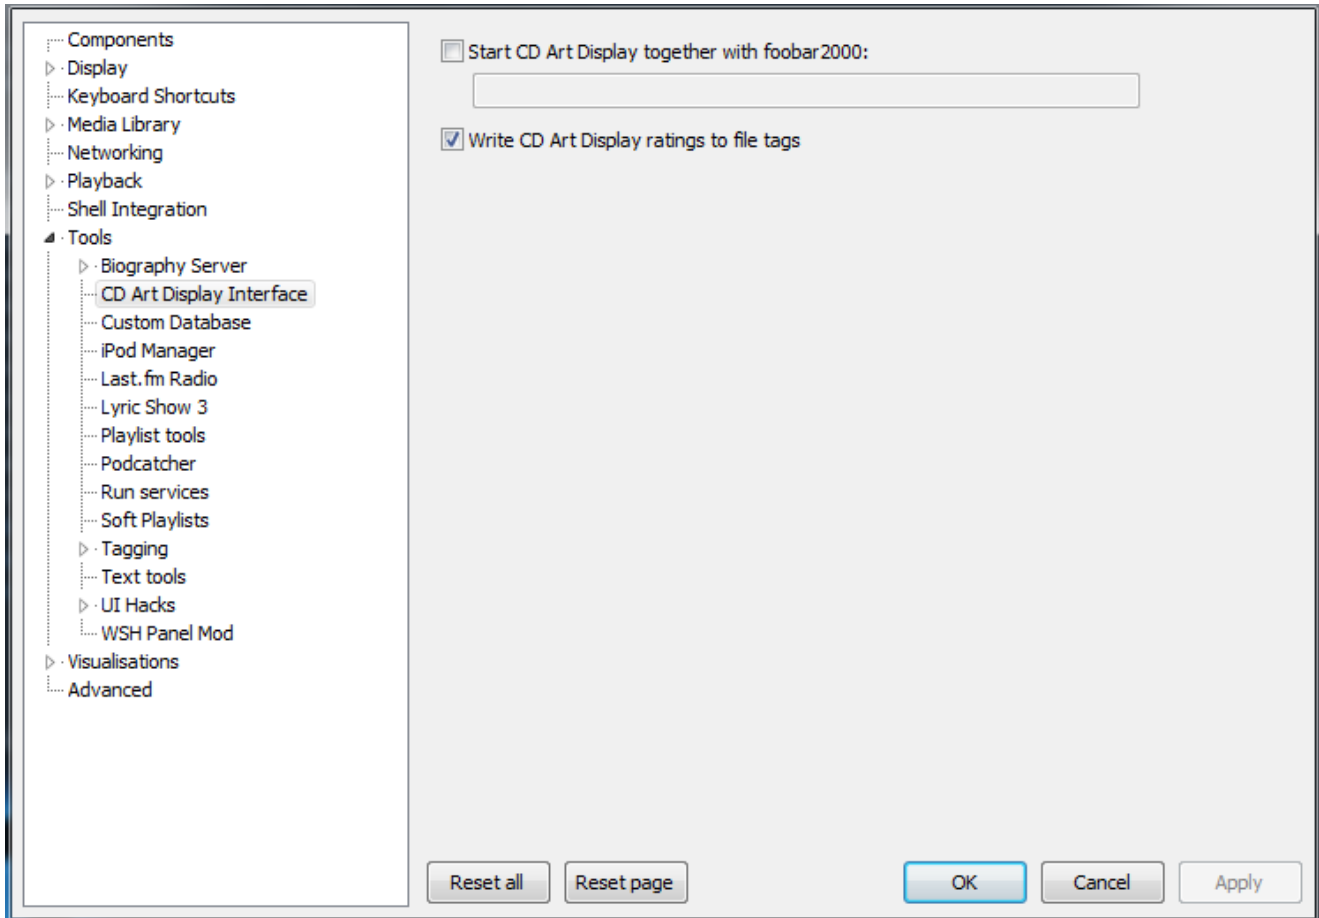

E:\Tools\FB2K - Silent Night - 2

FAQ

1. Change the Frame color

You can change the frame color in the settings panel. (see button 5 in the picture)

2. Change the size of albumarts in the playlist

"Settings->Files->Preferences" -> Left side: "Display->Columns UI->Playlist view" -> Right side: "General tab->Artwork (NG Playlist only) group->Artwork width"

3. Search bar doesn't work

Search bar works only with library, configure it first.

4. MP3TAG doesn't work

If you have downloaded the install version of MP3Tag instead of portable, the MP3Tag won't load from foobar. You have to modify

- the mp3tag.exe to mp3tagportable.exe in application directory.

OR

- foobar: "Settings" -> "File" -> "Preferences" -> Left side: "Tools" -> "Run services" -> Right side: "Services" -> "send to Mp3 Tag" -> "Path": modify Mp3tagportable.exe to Mp3tag.exe

5. Hide window border of windows around foobar (foo_ui_hacks.dll)

Use setting of "Main Window": "Settings" -> "File" -> "Preferences" -> "Display" -> "Main Window"
